A particular thank you to you for insisting on that technical run-through. It made all the difference – we were able to allocate resources accordingly and could brief team members.

ACADEMY OF ROYAL MEDICAL COLLEGES

[Your] AV tech was also really helpful and on the ball, keeping our presentations and sound running seamlessly. We'll use [you] again.

BARCLAYS

I really want to say a big thank you to your AV technician for being massively helpful and proactive – changing our slides to reflect the remaining agenda and tweaking for consistency, assisting all our staff and speakers in a friendly way and helping our external AV guy with the awards.
